## APA Honors Platinum-Level 100% Club Members

**C**ongratulations to the psychiatry residency programs that achieved Platinum-Level status in APA's 100% Club this year! The 100% Club was established to encourage residents throughout the United States and Canada to become APA members and take advantage of the variety of membership benefits available to them.

The Platinum Level is the highest level of membership in the 100% Club—these are programs that have remained at the 100% Club Gold Level for five consecutive years. Gold Level programs have 100% of their residents as APA members. Silver Level programs have 90% to 99% of their residents as APA members, and Bronze Level programs have 80% to 89% of their residents as APA members.

"I want to thank the residency train-

ing directors for emphasizing the benefits of APA membership to their trainees and supporting their efforts to join," said APA CEO and Medical Director Saul Levin, M.D., M.P.A. "The future of psychiatry depends on the outstanding men and women in our training programs today. That so many of our best and brightest are dedicated to their profession by being involved in APA gives us assurance that psychiatry's future is strong indeed."

Residency training programs can expect to receive recruitment materials from APA in the coming months. December 31 is the deadline for enrolling a program's general psychiatry residents to qualify for 100% Club membership for the current training year. More information is available by contacting Katie Putnam at [kputnam@psych.org](mailto:kputnam@psych.org). **PN**

### 100% Club Benefits

The benefits of 100% Club membership were designed to support the educational and career-development needs of psychiatry residents and build a collaborative community of psychiatric programs. More information can be found at [psychiatry.org/100club](http://psychiatry.org/100club).

#### Resident Benefits

- SET for Success, featuring more than 60 free, on-demand courses on the APA Learning Center
- A unique practice resource gift
